EXPERIENCE

Programmer Analyst - Cognizant - Toronto, ON.   Aug-2019-Mar-2020

- • Review code for accuracy and run tests for quality assurance.
- • Perform regression, and integration testing to verify software quality.
- • Analyze customer needs to create and implement appropriate solutions.
- • Develop, organize, and execute test plans and test cases to prevent failure in essential features (Manual and Automated).

Tools and technologies most used: Java, Python, Selenium, Jira, Git, Robot.

MOST RECENT PROJECT

- Spark Learning - REST API
    - Designed and Developed the Front-End using React, Redux, Axios, JSX, Bootstrap, and CSS.
    - Created the Back-End using Node and Express, generated all routes and connectivity with the database.
    - Developed the database structure and connectivity using MongoDB and Mongoose.

Live demo of this and more projects on my portfolio www.brennolima.com. Code on GitHub.
